

THE HOLY WORD OF GOD THAT INSTRUCTS AND CHANGES THE HEART OF THE MAN

Listen all you brothers the word of your God, it isn't a common word, word from plazas even if must proclaimed anywhere. Don't be afraid to do it! God will give the courage of it, but above all the words to proclaim it. But before read it, listen to it, live it you. It's enough to read it with the heart and to put it into practice. It will seem difficult in first moments or, in some moments, but your wish and the application of help to your God, this will be enough because the creature begins a walk of perfection. I know that perfection is a term that frightens you, but with the whole evil that is in the world, the sin that proliferates and the man that doesn't believe, it behaves the intervention of own God to ask is what absolutely important and necessary. If will convince you of this and will be united in to welcome the same Word, will see great things happen, will see will what fruits it will bring! Don't discouraged yourselves, because it's making it to yield in your heart that you will be able to reach that perfection to which God invites you: have care to read, to meditate and to live the Holy Word every day. It says "Come to me, you everybody that you are tired and oppressed and I will refresh you. Take from Me that I am mild and humble of heart and you will have comfort for your souls." It's this that God wants to make for you, refresh your souls! But how to put in practice the Word? One of the conditions, first condition is the pardon. Without it the Word cannot have put in practice, since if the creature doesn't forgive, God cannot forgive to her. Pardon is not easy, but if the creature delivers his own spirit to God, she will surely succeed. Second condition: the help to the next and if I bring help it is implied that I must love. To love it means to accept, to welcome what the next one is, without some judgment. You don't think being able to behave as you want, in contradiction to what you read, you meditate. Don't delude you, because God knows the heart of the man and knows all about him. It's useless to preach what it doesn't live, because you would not be believed. Certainly the man is fallible, therefore he always has need always help of God, that's why you must pray the Holy Word, because through the prayer, you will succeed in understanding what you don't understand».
