

## THE PAIN

Who offers himself or he offers himself for others, for a cause, here it acquires to the eyes of God a such value, that the person that submits himself to this offer can never understand. Try to welcome the pain, don't to turn it in desperation, because the desperation doesn't program anything. Who welcomes he sows and picks up. You people can't understand and won't ever understand the pain, but you knew how many deserves it collects for you and others! It is a mechanism, it's a mystery that the human mind cannot understand, but that in the eyes of God takes a inextinguishable value. It is the price paid for others, for those that do not believe and don't believe that this gift of God can redeem many people and bringing them to faith, to the recovery and to all that "passages" spiritual that instead it involves. It is a free pass for many situations, because that brother suffers and you get a "reward". It could be, it may be that many don't accept this mechanism, this way that God accepts from every creature, but God accepts this gift and takes it for all those situations that need to be arranged for the good of each. It's a permit for a lot of situations, because that brother suffers and you makes use of a "reward." It could be, it can be that many don't accept this mechanism, this way that God accepts from every creature, but God welcomes this gift and picks it for all those situations that must have fix for the good of each. The man with his own mind cannot understand the value of this ransom, but if then for generosity finds then an arid ground that nothing can bear fruit. Tell it to how many brothers you will meet in the pain this things. The acceptance of the pain is as if the creature presented a great basket of flowers to God and offered Him. Don't think to other when the pain touches you nearby, offer it and enough! To the rest God thinks. He will make it to become resurrection for you and for others. Don't sadden yourself sun, you that you are tired and oppressed, your God you will lift from every situation, if you will have trust in Him. To Him nothing is impossible! Often turn the look to the Sky, He has his tense ear and He always listens to the prayer of the humble person. Invoke Him and you will have answer. He won't disappoint you. Shout it to your brothers; He is a "good and merciful God, slow to the anger and rich of grace».
