

WHO IS NOT PURE OF HEART

When the spirit oppresses the creature who has accepted and accepts in his life things, which the soul devoted to God does not want to accept, it becomes hand-in-hand smeared with spiritual intoxications, which make man impure. At the beginning spiritual combat becomes very strong, but if the soul does not react to evil, but for reasons that the world imposes, it accepts and continues the way without worrying about it, evil takes over and the soul no longer manages to understand, to make the creature understand that the compromises it receives are at the loss of the soul itself. Poor creature! He does not know the state of his soul and does not worry, he does not care. He does absolutely nothing to change his spirit. But you pray for these people, don't criticize them, don't judge them, they're poor creatures who only need help. Pray to my divine mercy for them often. Keep in mind that no one cares of them at a spiritual level. You will do it you, I give you the commitment. It is not possible that they get lost themselves because no one thinks about them. My mercy comes everywhere! Commit yourselves in this way and you will save many souls. Fear nothing for you, I will defend you. They will become "pure of heart".
